

Take supervision to the next level with X\$alesSM Maps

The new platform that gives you real-time control over your field team's activity.

- Get a visual GPS map representation of all Points of Interest (POIs), routes, transactions, times and more.
- Track every member of your team at all times.
- Access to all generated data at the moment is created.

X\$alesSM Maps

Allows Supervisors to make better & timely decisions by giving them instant & full access to what happens in the field. Responding to any situation that requires attention, seconds after it occurs and not at the end of the day.

You have questions? **we have answers:**

① Are field reps visiting all POIs?

Track them in real-time.

② How far from these locations are transactions being created?

Check proximity to POIs.

③ Are reps following the visiting plan?

Compare Planned vs. Real route.

④ Can I decide who sees what?

Data segmentation available per Organizational Structure

⑤ Where are these POIs located in the map?

Get a visual GPS representation.

⑥ How the sales process is being served?

See all transactions created at POIs

⑦ Where are the reps when not creating transactions?

Trace them through Breadcrumbs

⑧ Can X\$alesSM Maps be integrated to other data sources?

All external sources are welcome.

**Set preferences, manage data and analyze results
in an easy and agile way, from your notebook or tablet**
